LOST HER "DIAMENT."—The Albany *Evening Journal* says that the shoddy aristocracy at Saratoga have great difficulty in wearing their unusual advancements. One unfortunate dunce of designing developments actually WENT through the martyrdom of dressing 15 times before supper on Tuesday. A young damsel at table in one of the big hotels yesterday, astonished the crowd by exclaiming, "Lor' mar, I've dropped my diament into the gravy!" A vigorous search for the lost jewel a stomacher pin—was made in the kitchen refuse, but unsuccessfully. It is only $1,200, and pops comes within Toodle's definition of a gentleman. "He don't care a darn."

THE number of battles fought during the late war is two hundred and fifty-two. Of these, the soil of Virginia drank the blood of eighty-nine, Tennessee witnessed thirty-seven, Missouri twenty-five, Georgia twelve, South Carolina ten, North Carolina eleven, Alabama seven, Florida five, Kentucky fourteen, the Indian Territory and New Mexico one each. Once the wave of war rolled into a Northern State, and broke in the great billow of Gettysburg. Of the battles enumerated, sixteen were naval engagements.

GEO. F. TRAIN ON SHERMAN.—There are two kinds of men afloat, positive and negative. One goes down stream and nobody sees him—the other goes up and all cheer. Sherman belongs to the positive order. Anything floats out with the tide, straw, paper, dead rebels, sinking fish, anything—but it is only a strong fish that swims against the current. It is the salmon that jumps the falls. Sherman is an entire man, a hundred-pounder among the pocket-pistol generals.

DURING the conflagration of Barnums Museum, a whale and the alligators got into a fight, in which the latter were badly whaled. It is probable that the whale took umbrage at certain allegations and pitched into the allegators.

The perseverance and the "pluck" of the English character, which have built it up into greatness, has just been exhibited in the matter of the Atlantic Cable. Having accepted the failure of 1858, it was resolved to make a second attempt, upon improved principles, and with more money than before. Unusual pains were taken, and scientific skill was largely taxed to construct a cable better than any that had yet been placed in the sea-depths, and the Great Eastern, particularly adapted for that purpose by it's vast size, which enabled her to contain the whole of the submarine line, was chartered for the undertaking. When the affair had been about two thirds accomplished, the cable broke—it seperated, most probably, at a place where two ends had been spliced, it's own weight in the water bearing so much weight on the junction as to destroy it. Various efforts were unsuccessfully made to recover the cable, though it was grappled with at an immense distance, but not so effectually as to be reunited with the portion in the Great Eastern which remained to be submerged. The mammoth vessel returned for additional "means" and "appliances," learning it was supposed, the exact place where the breaking occurred so well buoyed that it could readily be found at any time.

As soon as the Directors of the Atlantic Telegraph Company ascertained that there was a failure beyond doubt, they called a meeting of shareholders, and it was soon agreed to continue the effort to establish a submarine telegraph between Valentia and New Foundland, and £80,000 (or $400,000 in gold) was immediately subscribed. There is persistency and courage in this, and both are characteristic of our friend John Bull, for whom, as a distant relative in good circumstances we have considerable respect, independent of his being one of our own family.

If it be posible to lay the Telegraph between the two continents, we may be sure that it will be done. Whether it will succeed when laid is a different question—an experiment, indeed, which has yet to be made. Some able men of science doubt whether it can succeed, giving learned reasons for their disbelief; others equally well informed, have the strongest hopes that the telegraph through the Atlantic will answer as well as any other. Whether it does or does not succeed, the great merit of persisting in the experiment should be given to the English. If the thing is to be done "upon this line" John Bull will do it.

At all events we are destined, and at a period not remote, to have telegraphic cammunication with the old world, by the international line now being constructed in American, Brittish and Russian Territory. Whatever may happen, *this* will be a reliable mode of communication—certain though circutuous, and not so expensive in its charges, by one half, as the absurd tariff of the Atlantic Telegraph Company. The connection has to be made, and will be made—probably by our own roundabout route sooner than by the Atlantic line.

WASHINGTON correspondents deny that any substantial difference of opinion exists between President Johnson and the Cabinet in relation to the plan of reconstruction. One reason for the assertion is the fact that all the proclamations appointing he Provisional Governors are precisely in the same words, founded on the Tennessee arrangement, maturely considered by the President and approved by the Cabinet, showing a carefully considered plan, the amnesty proclamation being in accord with that document. The President, it is known, from the representations of his intimate friends, is determined to pursue substantially the reconstruction programme thus laid down, finding reasonable evidence from the South that it will be successful.

[...] Sept. 17.

[...] Charleston advices to the 11th and Savannah to the 13th, has arrived.

The delegation to the State Convention left that city for Columbia on the 11th.

S. L. Kibbach, President of the Florida Railroad, passed through Savannah on Tuesday last, on his way north, for new rolling stock for the road. He spoke very hopefully of the future of Florida.

Advices from Rome, Ga., says the people of that State are rapidly returning to their homes. Very large numbers have taken the amnesty oath. Part of Georgia has suffered severely from drouth.

The Herald's Paraguay correspondence contains no accounts of additional fighting, but much in regard to hostile operations. All four of the belligerants propose putting forth their greatest efforts. Little but war was talked of. The Paraguayans still hold the province of Carrients, in the Argentine Confederacy; they also maintain their foothold in the province of the Rio Grande. The Emperor Don Pedro arrived at the latter place, and issued a proclamation calling them to cut off the estate of Paraguayans now in process of execution. President Flores, of Uragua, is at the head of 5,000 Brazilian forces. Both sides are said to be greatest in numbers ever in South America. It was thought some sanguinary decisive fighting must soon take place. Conscription is in active operation in Brazil. Those who could not show exemption certificates are being gathered up by the police and bustled into the army. It was thought that the exemptions will soon be completely swept away, as the Emperor called for 10,000 men, and an army consisting of 100,000 troops. Advices of July 23d said they were in splendid condition.

The people of Buenos Ayres are much rejoiced over the prospect of soon having regular communication with New York, Buenos Ayres, in Congress, having granted a mutual subsidy of $20,000 for the extension of the New York and Rio Janeiro line to that place.

A special meeting of the Masonic Fraternity which was very largely attended, was held at Buenos Ayres in July, in honor of the memory of President Lincoln.

The Herald's Charleston correspondent of the 13th says, in consequence of the trouble along Ashley and Cooper Countys, between the Planters and Freedmen, the former complaining of the disregard of contracts on the part of the latter, and the negroes charging their employers with injustice and cruel treatment. General Bennett, temporarily in command of Charleston District, has issued an order requiring both whites and blacks to give up all arms in their possession. The old pro-slavery and secession spirit was expected to show itself in the State Convention and some delegates were congratulating themselves on the belief that slavery was not yet dead.

The Herald's Washington correspondent says that the friends of the Rebel Ex-General Early, are making vigorous efforts to secure his pardon.

Washington Sept. 17.

The total number of troops mustered out under orders from the War Department, August 14th, was 29,000; of this number, 6,000 were from the Middle Department, 8,000 from Washington, 5,000 from Kentucky, 8,000 in North Carolina, and 2,000 in Mississippi. An order dated the 19th of the present month, directs the mustering out of another large body of troops which will number about 40,000; 20,000 of whom are colored troops raised in the Northern States. No action will be taken by the Executive Department on the Mississippi Amended Constitution recently received and all others that may be sent hither from the South, than to communicate them to Congress.

Fort Smith, Ark., Sept. 15.

The remainder of the loyal Cherokees and also the rebel Seminoles signed the treaty. The other delegations have asked for further time, but gave the assurance that they would all sign the treaty. There seems to be a perfect reconciliation among all the tribes, except the Cherokees. Gen. Harney will attend the Bluff creek council on the 4th of October, instead of Col. Parker.

New York, Sept. 17.

The Tribune's Matamoras correspondent of Aug. 22d says. the term of office of President Juarez, will expire on the 30th of November next. leaving the men of the liberal party to Gen. Ortega who is said to be a very fat man for the place. At the crisis he will find himself beset with all sorts of wants; first among which is the money, treasury and army chests empty. His first care will be to fill them. then raise a foreign force of from ten to twenty thousand men, with which, and the native force of thirty to fifty thousand, he may be able to rally. The friends of the liberal cause in the north are in hopes that Gen. Ortega has been able to do something in New York.

The same correspondent writing from Camago says, the liberal force under command of Gen. Escumbado, has come to this place after sharp fighting with the enemy near the San Juan River, resulting in the defeat to them of some consequence.

Gen. Escabado marched and attacked a body of men escorting the Conductor of Specie going from Montre in the direction of Matamoras. The escort left the train at Cadrilla to march to the aid of Matamors. which officer in command, he heard was being attacked by a strong force of liberals on the 16th. It was attacked by a column of 4000 men, whom Gen. Escambado detached from his camp in pursuit of the enemy who were drawn upon the left bank of the San Juan river, at a Post called Pazo De Lacabias; his force consisted of about 800 of all arms, with half a battery; after four hours fight they were driven from the position and put to flight. They saved their artillery, and only a small body, which could not exceed 200 men kept it's order. Among the dead which remained on the field, was found the late rebel Gen. Parsons and six of his men. One hundred and forty prisoners were taken by the liberal force, a car loaded with arms and provisions and other ammunitions. One hundred stand of arms were gathered upon the field. The loss of the liberal force was one commandant and six men killed and two commandants, five officers and thirty-five men wounded. It is possible now for a large force to be gathered along the line and the San Juan River, and it's likely that a corps under Gen. Negrate will now come down to unite with that in and about here, in which case, a force of 7000 men could be concentrated; this would be strong enough [illegible] Matamoras [illegible] lion and [illegible] without [illegible] would have [illegible] their forces and march [illegible]

A Matamoras correspondent says, he learns from a direct source that the force under orders of Gen. Escambado amounts to about 2,500 men, 500 of whom are in Camargo, under Gen. Espinora. That place is at present the headquarters of the force. A party of 31 young men who have been in the U. S. during the late rebellion, went up to Camargo yesterday, along with Gen. Escambados staff, to serve as officers in the liberal army. A legion of 5,000 men could be easily raised for the cause; but there's a want of ammunition felt by the force in the north, it having only 100,000 rounds of ball cartridges and about 500,000 caps; this would give only 50 rounds for each man, and there is a great deal of firing in Mexican warfare. A fight of seven hours duration would suspend it. We have reasons to think that an attack will soon be made upon this place.

Augusta, Me. Sept. 17.

The most destructive fire that ever occured in Maine, swept through this city this morning. The entire business portion of the city, extending from the passenger bridge to Winthrop street, and from the river to above the railroad track is in ruins. The fire broke out in a wooden building on Water street and spread rapidly in all directions. The utmost efforts of the firemen could only confine its destructive progress to the limits above mentioned. Every lawyers office in the city, all the banks, two hotels, Post office, express and telegraph offices, and all the Dry Goods, Book and Clothing stores in the city, the U. States Quartermaster's, Commisary and Pension offices, the new Depot, the agent's and newspapers offices and many other buildings. in all numbering more than forty, occupied as places of business by more than 100 individuals and firms are burned. The Banks succeeded in saving all papers and treasury. The fire is undoubtedly the work of an incendiary. The losses cannot now be estimated, but cannot fall short of half a million.

New Orleans 17.

Montgomery 16th. The Committee to whom the question was referred, reported to-day. The Slavery Ordinance is substantially such as that adopted by the Mississippi Convention. Mr. White, offered to substitute both, which was postponed till Monday, when the debates will commence.

The Committee reported on the Secession Ordinance, there being both a majority and a minority report, the former similar to that adopted by the Mississippi Convention; the consideration of these reports was postponed till to-day.

On the Ordinance report, it is expected that we shall have very animated debates next week.

New York, Sept. 18.

The Buenos Ayres *Journal* contains some further very interesting items concerning the Paraguayan war; there is said to be much apathy regarding it among the people of the Argentine Confederation, who are slow in joining the army and in order to stir them up, Gen. Urynrses, formerly their President, has issued a proclamation, in which he says, he considers the contest against Paraguay so sacred, that he would go to join the Legion in the field, even if he should be deserted by his own children. In the meantime the Government has made arrangements for raising troops in Europe, in order to drive the Paraguayans out of the Brazilian Province of the Rio Grande. The Emperor has ordered that every fit man there must be put under arms, and 30,000 from other provinces must be moved at once to assist them.

President Lopez, of Paraguay, is displaying the most extraordinary vigor in his efforts to meet the assaults of those powers by which he is assailed. Every man and boy capable of serving is put into the army, and the necessary agricultural work is to be done by the women. It is thought that Lopez has nearly one hundred thousand men under arms, and he is well supplied with material of an excellent character.

From San Francisco.

SAN FRANCISCO, Sept. 12.

A letter from Durango says the French forces under Brincourt had marched on Chihuahua, leaving only a small garrison in Parral, although knowing that several strong guerrilla bands were near. On August 8th the Mexicans surprised the garrison and sacked the town.

James Ricketson, late of New Bedford, died suddenly on Sunday evening, of what appeared to be Asiatic cholera, though it is called cholera morbus.

The University of the Pacific at Santa Clara was on fire to-day, but the Institute buildings were saved. The stable and out houses were destroyed.

SALEM, Oregon, Sept. 12.

Yesterday morning, while the stage was coming from Albany down Jackson Hill, seven miles south of here, the horses ran away. The coach was thrown around on a curve in the road against a tree, breaking it all to pieces instantly, and killing W. H. Adams of Cañon City, badly injuring J. M. Beach of Albany, Mr. Heifer of Idaho, and two others, names unknown. The driver was seriously hurt, and the remaining passengers were more or less bruised. It had rained all night, and the roads were very slippery.

SAN FRANCISCO, Sept. 13.

Cheesman, Assistant United States Treasurer, leaves on the 18th for consultation with Secretary McCulloch on revenue and fiscal matters on this coast.

Kennard, the builder of the Fire Alarm Telegraph for this city, is negotiating for a similar enterprise in St. Petersburg, Russia. There is now no Fire Alarm Telegraph in Europe.

Elizabeth Levy was examined before the Commissioners of Lunacy to-day and sent to Stockton.

Alonzo P. Kirkland, the boy who set fire to a lumber yard on Stuart street, has been held to answer on three charges.

The America sailed to-day, carrying a letter mail and 800 passengers.

MR. I. MORRIS advertises for Government Vouchers, to day.

List of late arrivals from the east and north in our next.

A Southern paper says the sun this summer has as little mercy as a Radical.

THE number of Americans now in Europe is estimated at 100,000.

AUGUSTA, Georgia, has ice for the first time in 4 years.

NEW fashioned Unionism in South Carolina seems to be very much like the old article of secession.

THE new Hotel de Dieu, in Paris, covers 33,000 yards, containing 716 beds, and cost five million dollars.

SUMMER seems to have come back again. October weather we've been having these three or four days back.

THEATRICAL --To-night the ladies of the Dramatic Association are to have a Benefit at the Theatre. It will be a big one.

GEN. BEAUREGARD, it is rumored, will soon ask for pardon, that he may go to Europe and take a position in the French army.

A MOVEMENT has been started in St. Louis to erect a monument to General Lyon, on the battle ground at Wilson's Creek.

GOV. EDGERTON of Montana is about to return to the States this Fall, passing the gubernatorial tapes into the hands of Major-General Meagher.

THE dowager Queen of the Sandwich Islands has arrived in England. She is said to be a handsome, light brown color--pretty, stylish and thirty.

A ---- regiment, on 14th, en route home, numbered about 900 men, and about every men had a contraband, a coon, and a grey squirrel. The pets filled several box cars.

LIEUT. GOV. Chas. Anderson, brother of Major (Gen.) Anderson, of Fort Sumter fame, assumes the duties of Gov. of the State of Ohio since the death of John Brough.

Stoves, Tin, Sheet Iron, &c. Everybody interested in hardware bargains had better read new advertisement headed as above. The place is next door to Messrs. Ransohoff & Co's, East Temple Street.

THE Chicago *Republican* says Mrs. Lincoln is living in perfect seclusion at the Hyde Park Hotel, on the shore of the lake seven or eight miles from that city. Both her sons reside with her.

AN article about the new theater trouble, that is to say the trouble about the lot and so on, would appear if we knew all about it. As it was, the more we learned the less we knew, so many seemed to claim things.

SUPT. REYNOLDS, of the Overland Stage Line, has our acknowledgements for items about the road, whither he has been for weeks past, putting the institution in daily running order. Stock and coaches are now replaced all over the line, and mails and passengers will keep coming in here daily for the future.

A LIST of the order mustering out some seventy-five Maj. and Brig. Generals, so widely published in the Eastern journals, is bogus. None such has been issued. So, too, the statement, that all colored troops are to be mustered out, is declared false. Only those mustered in under State organizations are to be discharged.

ABOUT $50,000 worth of worn-out fractional currency is destroyed each day, and its place supplied with new. The entire amount in circulation is upwards of $21,000,000 No more three cent notes are to be issued--the act of Congress prohibiting them—and the five cent notes will also be withdrawn.

A genteman in New York, has offered to give $500 in prizes of $200, $150, $100, and $50, to those soldiers who have lost their right arm or had it disabled, who will show the best specimen of left hand penmanship—the design being to induce the men to become skillful penmen, in order to fit themselves for lucrative and honorable positions.

BRIGHAM YOUNG'S wives are numberless; at least no one seems to know how many he has; and he has himself confessed to forgetfulness in the matter. The probability is he has from 16 to 20 genuine or complete wives, and about as many more women 'sealed' to him for heavenly association and glory. The latter are mostly pious old ladies, eager for high seats in the Mormon heaven, and knowing no surer way to get there than to be tacked on to Brigham's angelic procession. Some of these sealed wives of his are the earthly wives of other men; but, having faith in their husband's heavenly glory, seek to make a sure thing of it for the future by the grace of gracious Brigham. Down east, you know, many a husband calculates on stealing into heaven under the pious petticoats of his better wife; here the thing is reversed, and women go to heaven behind their husbands' pious cloak.—Both ought to get there.

GREAT preparations are making for that grand ball at the Association Hall on ---- evening. It will be the biggest and most brilliant ever held there.

HON. THOMAS FRANCIS MEAGHER left for Virginia City, Montana, by yesterday's coach. His short stay in Salt Lake City was made agreeable as could be, to the distinguished gentleman.

W. P. MARTIN, Esq., of this place or rather of Montana, came down by Monday evening's stage. Alex. Majors, the famous freighter, (of Russell, Majors & Waddell) got here by coach from Colorado yesterday.

A gentleman who has traveled through Iowa lately says that there are at least twenty thousand returned soldiers at work in that State helping to save the harvest. He saw hardly an idle soldier in the State.

KEEP PAPER AND PAPER! At the burning of Barnum's Museum, his iron safe fell in with the floors, and had to remain there in the fire a day or two. When taken out, everything covered with leather was destroyed! Everything covered with paper or linen was uninjured! The money in the leather wallet was burned up, but that in the paper envelope was safe. So with deeds, bonds, and other valuable papers.

AN able writer says that not one man in ten thousand seen those with whom he associates as they really are. If the prayer of Burns were granted, and we could all see ourselves as others see us, ourself estimate would in all probability be much more erroneous than they now are. The truth is that we regard each other through a variety of senses, no one of which is correct. Passion and prejudice, love and hate, benevolence and envy spectacle our eyes and utterly prevent us from observing accurately. Many whom we deem the porcelain of human clay are mere dirt, and a still greater number of those put down in our "black books," are no further off from heaven, and perchance a little nearer, than the censors who condemn them.

Idaho Items.

The Boise City *Statesman* of the 12th, contains the following, among other matters:

FIFTY dollars reward for the dog with the silver collar. At that rate the finder can afford to return him.

DR. S. A. Knott, charged with shooting Billings at Idaho City, has been discharged, having successfully proven himself to have been elsewhere at the time of the shooting.

The District Court met again yesterday morning, but without transacting any important business adjourned till to day at ten o'clock.

PERSONAL.—Hon. J. W. Nesmith, Senator from Oregon, arrived last night on the Overland Stage from the west on his way to Washington. This is the first time he has been in Idaho Territory since he drove an ox team across the plains twenty two years ago. Before resuming his journey he will look around a few days to see "who's been here while he's been gone," and perhaps visit Owyhee and Boise counties.

Mr. A. Bush, for many years the able and popular editor of the Oregon *Statesman* is in company with Mr. Nesmith.

The theatre had a fair attendance last night to witness the performance of the "Silent Woman," and "Box and Cox" by the grand theatrical combination troupe consisting of Estelle Potter, Geo. Pardey and wife, Miss Florence, Johnny Edwards and others. The entertainment was interspersed with singing and dancing. They gave general satisfaction, and will probably perform again.

The Idaho City *World*, of the 9th, has come to hand, the first copy we have seen of that hebdomadel for a spon's age. We extract as follows:

"Fort Walla Walla is to be abandoned. The stores are to be removed to Fort Boise and other stations. The citizens of Walla Walla are "down in the mouth" about it. The town is reported very dull at present.

COLD.—Thursday and Friday of this week were very cold, blustering days—cold enough to belong to Winter's empire. Heavy coats are in demand.

MEETING OF THE LEGISLATURE.—We are requested by a correspondent to state the time of the meeting of the next session of the Legislature. The Legislature will convene at Boise City, on the first Monday of December next—on the same day that Congress assembles at Washington.

WHAT letter is it that is never used more than twice in America? Letter A.

Must we never so easily deceive, except when they are plotting to deceive others.

From what tree was mother Eve prompted to pick the apple? Dewdrop.

Writs of [illegible] in Richmond, Va., attract newspaper attention there as an "innovation."

A member of the English Parliament had to pay $50,000 for not keeping his promise to marry a young lady.

Negroes were allowed to vote in Connecticut until 1817. At present the Legislature is trying to amend the State Constitution, so as to allow them to vote again.

A polite philosopher once thanked a lady who had been singing to a party for an hour, by saying, "Madam, you have wasted our time most charmingly."

A young lady being told that her lover was suddenly killed, exclaimed: "Oh that splendid gold watch of his! Give it to me, that I may remember him and cherish his dear memory."

United States 7.30 LOAN.

$230,000,000.

Bearing interest at the rate of seven and three-tenths per cent. per annum, for three years, in lawful money, the undersigned, the General Subscription Agent for the sale of United States securities, is prepared to receive subscriptions for

TREASURY NOTES,

bearing seven and three-tenths per cent. interest per annum, known as the

THREE YEARS

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5.20 Six per Cent.

Gold bearing Bonds.

The Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, from County, and Municipal taxation, which adds from one to three per cent. per annum to their value, according to the rate levied upon other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent, amounts to

One cent per day on a $50 note.
Two cents per day on a $100 note.
Ten cents " " " $500 "
Twenty cents " " " $1,000 "
One Dollar " " " $5,000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.

The notes of this Third Series are precisely similar in form and privileges to the Seven Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7 3.10 in currency. Subscribers will deduct the interest in currency on to July 15th, at the time when the subscribe.

The delivery of the notes of this third series of the seven thirties will commence on the first of June, and will be made promptly and continually after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency. This is

The only Loan in the MARKET.

Now offered by the Government, and its superior advantages make it the

Great popular Loan of the People.

Less than $230,000,000 of the Loan authorized by Congress are now on the market. This amount, at the rate at which it being absorbed, will all be subscribed for within sixty days, when the notes will, undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of country may be offered facilities for taking this Loan, the National Banks, State Banks, and private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which the receive orders.
